Twin Elms

SYRACUSE NEW YORK

A PLEASANT HOME ATMOSPHERE

Twin Elms was founded to meet a particular need. This need — a place up-state for private care and treatment of acute, recoverable mental disorders.

Seven years have established outstandingly that an aim for a homelike atmosphere, as free from institutional mannerisms and restraints as is consistent with good care, has been attained. Results have also proven the effectiveness of treatment methods used.

A personnel of nurses and attendants has been developed so considerate and proficient in applying psychotherapy, occupational therapy, recreational therapy, and hydrotherapy as to win the commendation of patients, physicians, and families.

The physical plant affords refined comfort. Ten cases only are cared for at one time.

Morphine and alcoholic addictions are treated in selected instances.

EUGENE N. BOUDREAU, M.D.

An OPEN LETTER to the GENERAL PRACTITIONER

As Family Physicians, you are guardians of the public's health, and, as general practitioners can do much to protect and conserve its vision.

When patients come to you suffering with eye conditions which call for an Eye Physician's treatment or refraction, advise consultation with an Ophthalmologist and direct the sufferer to one.

In case of any functional disturbance which may be the cause of eye-trouble, the patient will be referred back to the Family Doctor for further treatment.

Guild Opticians do not examine eyes. They realize the importance of a medical eye examination by an Eye Physician.

This is safer for the patient—it is sure to work out to your personal professional advantage and keeps the patient in the hands of the Medical Profession.

THE GUILD OF PRESCRIPTION OPTICIANS OF AMERICA

NEW JERSEY

(Pages 601 to 716 inclusive)

AUTHORIZED by the Trustees, the staff of the Executive Offices of the Medical Society of New Jersey collected the additional data on the medical profession of this state which appears in this Directory for the first time.

In collaborating with the Medical Societies of New York and Connecticut to make this Medical Directory more valuable to the physicians of the three states, every effort was made to gather the requisite material and to have it as complete as possible.

Where limited data may occur, omissions resulted from individuals neglecting to respond to requests for information in time for publication.

Complete and accurate information is as important to the physicians and hospitals listed as it is to the daily users of this Directory. Changes and corrections should be reported for adjustment in the next edition.

All communications pertaining to listings in the New Jersey section should be made direct to the Executive Offices of the Medical Society of New Jersey in Trenton.

DR. WADSWORTH'S
SANITARIUM
"WOODSCOURT"
SOUTH NORWALK. CONN
A Beautiful Spot for Rest and Recuperation
Individual Care in Non-Institutional Surroundings

A MODERN up-to-date HEALTH RESORT, with fireproof buildings, fifteen acres of lawn, located on a hill in the city, commanding extensive views of Long Island Sound and surrounding country. One hour from NEW YORK CITY on the N. Y., N. H. & H. R. R.

Dr. Wadsworth has devoted over thirty years to the study and treatment of nervous diseases, establishing the Sanitarium in 1903, after realizing the great demand for an exclusive Home, conducted along individual lines.

THE GUARANTEE OF OPTICAL QUALITY

The high standards of workmanship and of service maintained by the members of this Guild is raising optical standards in general.

The Guild, in its efforts to educate the public to a better understanding of "The Safe Way"—the safe, scientific way which leads first to the Eye Physician, and then to the Guild Optician, has also educated the public to expect better workmanship and service.

The Guild is constantly working to bring patients and Eye Physicians together, enlarging the field of Ophthalmological science, improving the optical craft—and is constantly fighting the efforts of non-medical refractionists to effect legislation which encroaches upon the practice of Eye Physicians, and the business of ethical, dispensing opticians.

In Connecticut, as in other states, it supports such legislation as licensing dispensing opticians for the protection of the public, the Eye Physicians, and ethical opticians.

Safeguard your own interest, and those of your patients, by cooperating with this Guild and using Guild opticians only.

CONNECTICUT

(Pages 717 to 768 inclusive)

TO cooperate with the other State Societies represented in this Directory, the Connecticut State Medical Society has used its facilities to expand the data in the Connecticut section to a completeness comparable with that of New York and New Jersey.

The professional information compiled for publication has been graciously furnished by the physicians of Connecticut and their generous aid is appreciatively acknowledged.

In a task as difficult as soliciting and transcribing thousands of requisite items for the first time, a few omissions and errors are likely to have occurred. If such are found, the State Society should be notified so a change can be made in the next issue.

Changes and corrections concerning items in the Connecticut section should be sent to the Executive Offices of the Connecticut State Medical Society in New Haven.
